23.   Problem: (use additional Sheets if necessary)
As per NCR ECSed33929, purify does not work on solaris 8 machines after the installation of the 02/02 Solaris OS patch. The version the vendor refers to in the TT attached in 33929 is a proto version, and we do not know when a general release version of this product with the appropriate bug fix will be available.

24. Proposed Solution: (use additional sheets if necessary)
Install the proto version of the bug fix as an automount for the sun5.8 architecture. The tar file NewPurify.tar is in the CM inbox on the machine "lemmings"; cksum output:
3202046105   85975552   NewPurify.tar

25. Alternate Solution: (use additional sheets if necessary)
None

26. Consequences if Change(s) are not approved: (use additional sheets if necessary)
Purify is essential when we encounter memory corruption problems, which are often severity 1.
